1 Introduction

1.1 Why Spiff Warehouse?

Spiff Warehouse provides an interface for storing revisioned data in a file system.

1.2 Legal Information

Spiff Warehouse and this handbook are distributed under the terms and conditions of the GNU GPL (General Public License) Version 2. You should have received a copy of the GPL along with *Spiff Warehouse*. If you did not, you may read it here:

<http://www.gnu.org/licenses/gpl-2.0.txt>

If this license does not meet your requirements you may contact us under the points of contact listed in the following section. Please let us know why you need a different license - perhaps we may work out a solution that works for either of us.

1.3 Contact Information & Feedback

If you spot any errors, or have ideas for improving *Spiff Warehouse* or this documentation, your suggestions are gladly accepted. We offer the following contact options:

Google Groups: <http://groups.google.com/group/spiff-devel/>
Bug tracker: <http://code.google.com/p/spiff-warehouse/issues/list>
Phone: +49 176 830 40288
Jabber: knipknap@jabber.org

2 Overview

Spiff Warehouse does not yet have any documentation - sorry.

```
from SpiffWarehouse import DB, Item
```
